## INTERNATIONAL CONFERENCE ON APPROPRIATE TECHNOLOGY DEVELOPMENT

# ICATDEV 2015

“APPROPRIATE TECHNOLOGY FOR SUSTAINABLE  
AGRICULTURE DEVELOPMENT”

## Call for Papers

**ASTON TROPICANA HOTEL**  
Bandung, October 5<sup>th</sup> - 7<sup>th</sup>, 2015

INDONESIA INSTITUTE OF SCIENCES  
(LEMBAGA ILMU PENGETAHUAN INDONESIA, LIPI)  
CENTER FOR APPROPRIATE TECHNOLOGY DEVELOPMENT  
(PUSAT PENGEMBANGAN TEKNOLOGI TEPAT GUNA, PUSBANG (TTG))  
Address : K.S. Tubun Street, No. 5 Subang, West Java, Indonesia  
Telp. (0260) 411478, 412878, Fax. (0260) 411239, Post code 41213

## BACKGROUND

It is clearly defined by World Economic Forum partners 2009 that to meet the world's needs, *sustainable agriculture* must simultaneously deliver food security, environmental sustainability and economic opportunity. Goals are set by the Vision, and each area is expected to achieve 20% improvement per decade until 2050. Among factors identified as important determinant, improved agricultural technologies shall be the key ingredients in *raising productivity, competitiveness and nutritional as well as income security*. However, promoted technologies, be it produced by research and development entities, or grassroots, should be able to fulfil the needs of present and future generations for its products and services, while ensuring *profitability, environmental health and economic equity*. The principle to be sought by appropriate technology, as emphasized by Dr. Fritz Schumacher the author of the book "Small is Beautiful – Economics as if people mattered", as the kind of technology that fits small-scale, grassroots, community-centered-economics. Appropriate technology utilization to achieve sustainability in agricultural development therefore may become a significant vehicle to face the current global challenge, i.e. poverty eradication, an indispensable requirement for sustainable development.

## OBJECTIVES

Through exchange of thoughts and best practices, we aim to establish common perspective on the importance of appropriate technology as a vehicle to achieve equity and equitability as signified by sustainable agriculture.

- Specific objectives :To encourage inspiring thoughts arising from research works, scholarly experience, and analytical review in a wide range of disciplines
- To improve understanding of relevant policies implication on the extension of appropriate technology on rural income generation under the sustainable agriculture development framework.

The Conference covers specific topics pertinent to :

1. On-farm and off-farm activities
2. Appropriate technology transfer strategy
3. Socio-economic aspects of appropriate technology adoption
4. Multi-disciplinary perspective in technology adoption for sustainable farming system

5. Financial support system
6. Grassroots innovation, local wisdom, local institution, social capital and social environment
7. Policy aspects

**We invite :** Government officials and policy makers, nongovernmental organizations, researchers and academics , graduate students, farmers and farmer groups, private sectors, and others

To meet and network with each other in order to enhance our understanding about the importance of relevant issues in achieving sustainable agricultural development.

## KEYNOTE SPEAKERS

1. **Dr. Akmadi Abbas**, (Vice Chairman of Indonesian Institute of Sciences)  
Topic: "Appropriate Technology Development in Indonesia"
2. **Dr. Terry Rambo\***, Chiang May University, Thailand  
Topic: "Sustainable agriculture development through appropriate technology in Thailand"
3. **Prof. Choi, Hong Lim**, (Animal Environment and Bio Engineering, Seoul National University)
